FOREWORD

Do you remember when? There are all of those special moments in High School: the thrill of being in Jr. High, of becoming a seventh grader; then in the eighth grade you are an upper classman. During your first year in High School, it starts over again. Freshmen are constantly getting in trouble for something. As a sophomore, you begin to get into the full swing of things by joining clubs, and trying out for teams. As a junior you plan for the banquet, if the seniors could only remember —. You can't help envying the seniors, because they will be out very soon. The seniors are waiting very impatiently for graduation, but at the same time realizing that O.H.S. will soon be just a memory.

All these times are like looking through a window, you look back and know that they are only memories on the other side of that window. Now you must keep looking forward, and go after your goals for today.

The Beginning of School Brought Many New Things; New Teachers, Competition in Sports, and Getting Ready For Contests.

*Later in the Year the Snow
Fell, and It Was Time For
Decorating Doors. Then
Comes the Time to Get Back
into the Old Routine. And
Now It Is Time to Say
Good-bye.*

The 1978 Los Tejas is dedicated to a very special person. She is a very important lady in the Overton High faculty, Mrs. Pat Gardner is determined and willing, is involved in many things. She is the sponsor of the annual and works very hard to see it is a good one. She is active in U.I.L. Typing and U.I.L. Shorthand. Her most important involvement is students. She always helps the students any way that she can, especially being there to listen to our problems.

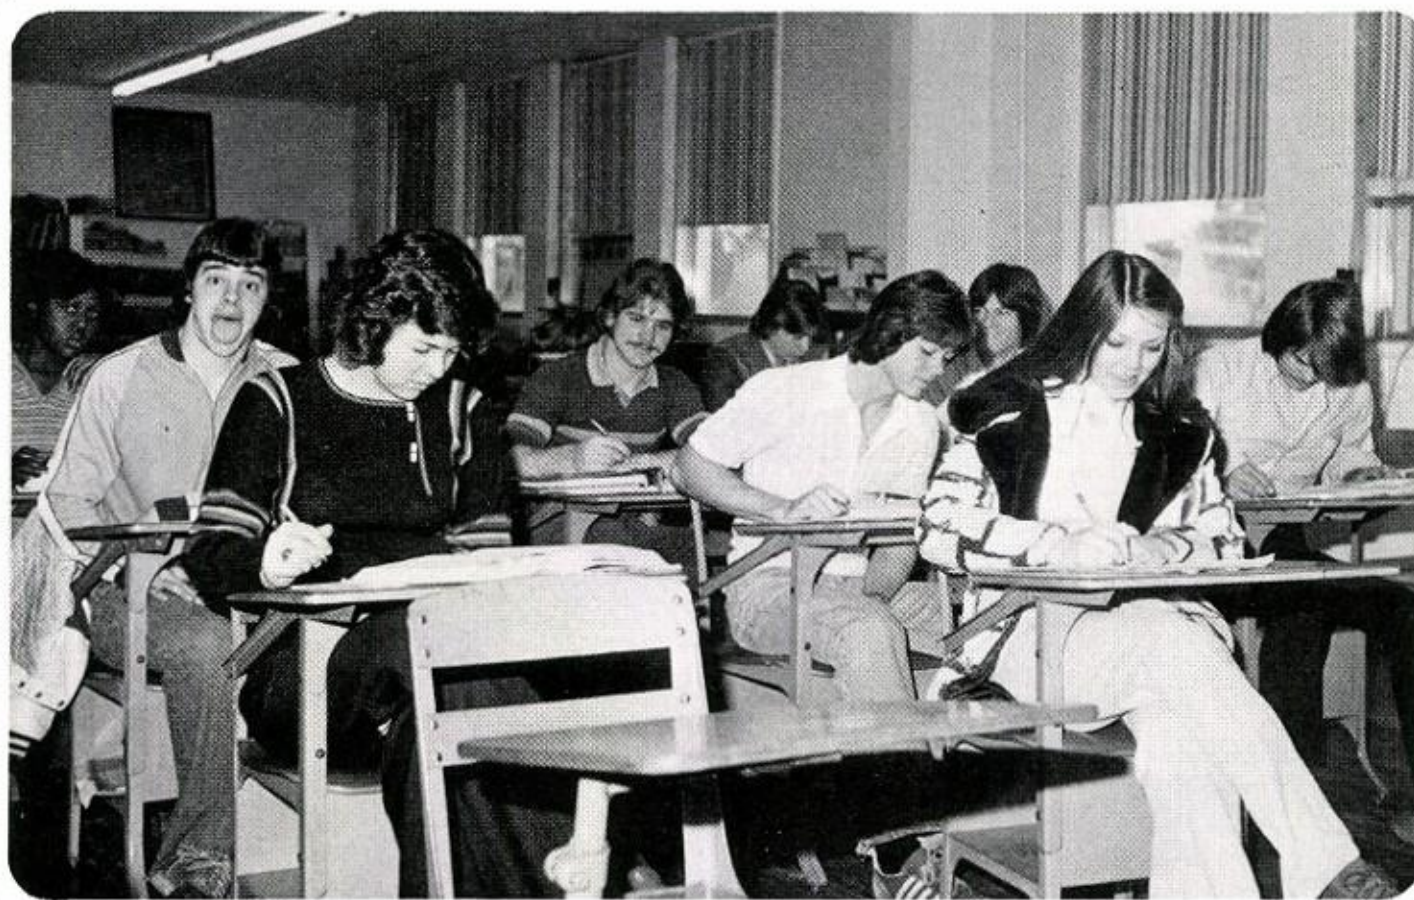

We proudly dedicate the "78" Los Tejas to you, Mrs. Gardner.

FHA IN ACTION

This year has been a successful year due to our advisor, Mrs. Rouquette, through her understanding and guidance. We have learned many new and interesting things, and we have grown to understand ourselves more. Shown here are some of the projects we have done some of which have included: a trip to the Dallas Fair, signs to raise school spirit, and an Open House for students and faculty. We have had some tough times but all in all it was a great year. We owe it all to Mrs. Rouquette who was here for only a year but made it one of our greatest years.

HISTORY AND SCIENCE

Our history subjects here are good you'll find because (Mrs. Harrot, Coach Gatlin, and Coach Harper) will tell us which and what treaties were signed.

Science is alright that is if you're bright. Our teachers Harper, Kirkpatrick, and Swinney usually persuade us to work with . . . well I'll say this much it's not a penny.

But seriously they're nice and if you're lucky you might even have them twice. Also they are understanding and kind and some of the nicest teachers you'll ever find.

BUSINESS AND VOCATIONAL COURSES

Mrs. Rouquette taught our girls how to cook and sew and even how to find a Beau. She also taught us how to care for children's needs and other family deeds. For we are the future homemakers and Bakers and etc. . . .

Shorthand is wise to take and as Mrs. Gardner would say, It's good for your sake!

Our agriculture boys find lots of joys with building and farming, so the future upon them won't be so alarming. So we give many thanks to their teacher Mr. Price who is tops in our ranks.

ENGLISH AND MATH

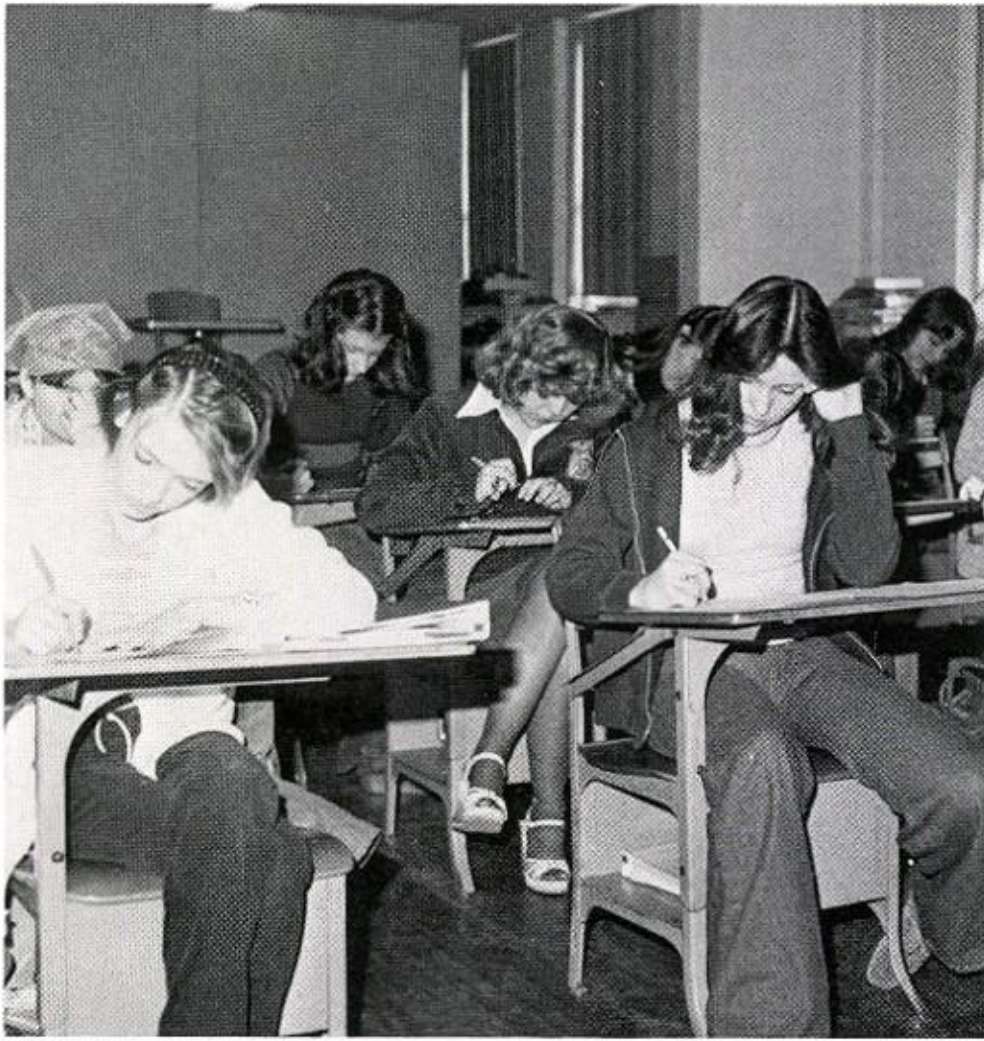

We learn our English actively and therefore, we speak it beautifully, Well almost you see, we don't like to boast. Our teachers, (Mrs. Cohagen and Miss Williams) are really good and try as hard to teach us as anyone could.

Do you know our teachers (McDowell and Kirkpatrick) have finally gotten through that one and one, does equal two?

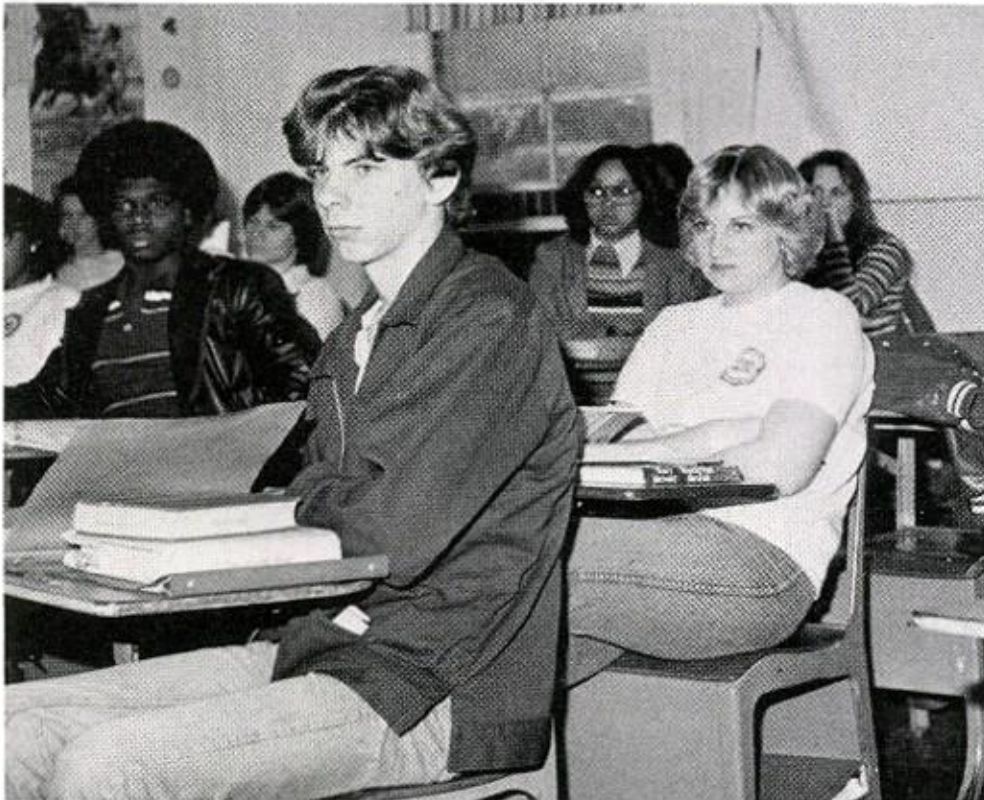

And when we do good on a test. They usually let us have a short rest for all in all they know what's best.

ELECTIVES

Speech here is good too. For everyone including you. Our teacher, Mrs. Cohagen, will keep you on your toes.

Our Band at Overton High is lots of fun. And our band director (Mr. Rhame) keeps us going at a run.

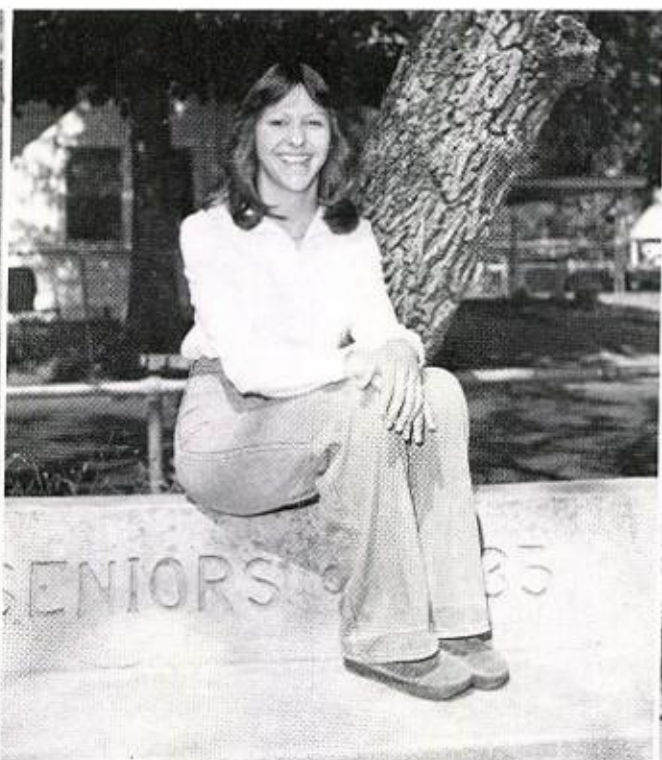

Next comes Spanish on our list. Miss Williams makes you write so much you begin to have pains in your wrist.

WINNING

The crowd cheers as their team scores,
Spirits are high and emotion soars.
Our team takes the lead in the game,
And for all of us, victory is the same.
Is victory really winning the game?
If that's all it is, it's really a shame,
For winning cannot be measured by a score.
Winning is truly very much more.
Winning can only be measured by one's heart,
And this scoreboard is of the ultimate sort.
For down deep inside we know, when we've won,
And this victory comes, from a job well done.
